Fried Fish Roll: tuna, salmon, snapper, and asparagus deep fried	揚鳴門巻	8.50

The FDA advises that women who are pregnant or could become pregnant, nursing mothers, and young children not eat shark, swordfish, king mackerel, or tilefish. These groups should also limit their intake of fresh, frozen, and canned tuna.

There is a risk associated with consuming raw oysters. If you have chronic illness of the liver, stomach, or blood or have immune disorders, you are at greater risk of serious illness from raw oysters, and should eat oysters fully cooked. If unsure of your risk, consult a physician.

Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of food borne illness, especially if you have certain medical conditions.

-State of Florida Dept. of Business and Professional Regulation
